INTERNATIONAL GEOLOGY REVIEW is published monthly by the Translations Office of the American Geological Institute. Translations are selected from Soviet geological journals in all disciplines on the advice of the AGI Translations Committee (Dr. John Lemish, Chairman) and Dr. Nicholas Rast. Prepublication announcement of geologically important Soviet literature and reviews of the nonserial literature are features. IGR publishes subject and author indexes, and an annual table of contents. Copyright © 1975, American Geological Institute. Printed in the United States of America. All rights reserved. This journal, or parts thereof, may not be reproduced in any form without permission of the AGI Translations Office.
